

FUTUREVET

Co-funded by
the European Union

The FUTUREVET project aims to create materials and guides to pave the way for teachers to implement a new, more inclusive and work-oriented vocational training, and especially to enable Spanish teachers to implement the new Organic Law for the Organization and Integration of Vocational Training approved on December 16, 2021.

OBJECTIVES

- Generate mechanisms to address the needs and priorities of educational centers, VET teachers and technology companies to implement the new VET model.
- Promote inclusive mechanisms that do not create new obstacles for students.
- Promote the internationalization of VET and the joint capacity of educational centers and companies to face the implementation of the new VET model.
- Contribute to promote the transformation and innovation of the vocational training model.
