DESCRIPTION

The result VET4TECH search system is a software that connects leading technology companies with vocational training centers with high levels of students with obstacles in order to facilitate joint participation in research projects, internships in international companies and the employability of students with obstacles.

Currently, VET4TECH brings together **79 entities** from the technology sector (technology companies, research centers and universities) and the education sector (VET educational centers) from **13 countries of the European Union**.

A background image showing a close-up of a person's hands typing on a laptop keyboard. Another person's hand is visible in the background, pointing towards the screen. The image is partially obscured by a white rectangular overlay on the right side, which contains the text.

OBJECTIVE

The VET4TECH SEARCH SYSTEM is a tool with the aim of connecting leading technology companies with vocational training centers with high levels of students with obstacles in order to facilitate joint participation in research projects, internships in international companies and the employability of students with obstacles. All this with the aim of promoting the inclusion and employability of these students.

BENEFITS

FOR VET STUDENTS

- A unique opportunity to participate in innovative projects
- An adapted environment with companies with experience in their profile
- A great opportunity to get out of your environment and enhance your curriculum.

FOR TECHNOLOGY COMPANIES

- It allows them to find educational centers in Europe with which to collaborate and carry out mobilities.
- It allows them to find students trained for their Jobs and knowledgeable about their methods.
- It allows them to makes it easy to host internships in their companies.

FOR VET CENTERS

- It allows them to find specific companies willing to host mobility of students with obstacles.
- It allows them to give visibility to its students with obstacles, offering them a real opportunity to carry out innovative and adapted internships in companies.
- It allows them to facilitate the center's participation in network innovation projects with leading companies in the technology sector.

HOW TO SEARCH WITH VET4TECH

STEP 1: FILTER YOUR SEARCH. Select the search filters that interest you most. In the case of the "Kind of entity" and "Field" filters, the answer can be multiple, while in the rest of the filters you can only choose one of the options. But don't worry! If you want to perform several searches, you just must select in the "Delete filters" button to reset the search!

STEP 2: START YOUR SEARCH. Select the "Search" button and your search will begin. The software will tell you all the entities that fit your search filters.

STEP 3: ACCESS THE INFORMATION OF EACH ENTITY. For more information about the entities, you must select the "Read more" button under each logo of the entity. From here you can access the description of the entity and relevant information to contact, such as its website.

A close-up photograph of a person's hand pointing their index finger at the screen of a silver laptop. The laptop is open, and the screen displays some indistinct content. The background is blurred, showing what appears to be an office or study environment.

HOW TO JOIN VET4TECH

STEP 1: ACCESS THE FOLLOWING LINK.

You can find the link from the VET4TECH Platform, as well as from the website of the Erasmus Plus Project "TECHVETLAB".

<http://www.criticalthinking4vet.eu/vet4tech/join-vet4tech/>

STEP 2: FILL THE FORM

In order to join VET4TECH you must fill out a form with the data of your entity (name, country, website, contact), as well as the most relevant aspects to find your entity in the search within VET4TECH (the area of studies / work of your entity, whether or not you have previously carried out mobilities, if you are interested or not in carrying out these mobilities ...).

STEP 3: SUBMIT THE FORM.

Once you have filled out the form, you must send it. Those responsible for the VET4TECH Platform will receive your request and respond as soon as possible.
